Security Measures to be taken to Ensure Integrity and Confidentiality of your Personal Data

The security of your information is important to us. We have taken certain administrative, technical, and physical steps to safeguard the information we collect through CCTV systems against unauthorized use, disclosure, alteration, or destruction.

Among the safeguards employed include:

- Restricting access to CCTV footage – only authorised personnel are authorised to access the CCTV systems and data collected on a need-to-know basis. Access logs can be accessed upon receipt of a legitimate approved request
- The ICT Department is responsible for the administration and oversight of the CCTV system
- We have implemented strong authentication controls including strong passwords on CCTV systems to prevent unauthorised access
- We have ensured that the network infrastructure supporting the CCTV system is secured using firewalls.
- We keep our CCTV management software up-to-date with the latest security patches to minimise exposure to vulnerabilities.
- Personnel with access to CCTV systems will receive training on the responsible use of the CCTV system

While we make every effort to help ensure the integrity and security of our network and systems, we cannot guarantee our security measures to be free from vulnerabilities.

How Long We Retain Your Personal Data

We retain your personal data collected through CCTV footage for a defined period based on the organization's operational and legal requirements. The current retention period as per company policy is 2 Months from the date of collection.
